

IMPORTANT NOTICE

from the **CITY OF HERMOSA BEACH**

Notice of increase in annual sewer service charge effective **July 1, 2025** for Fiscal Year 2025-2026.

Visit www.hermosabeach.gov for additional information from the City.

Each year, an annual sewer service charge is levied upon each parcel of real property in the City of Hermosa Beach for the overall operation, maintenance, and servicing of the City's sewer system and to pay for capital improvements and reserves.

On July 1, 2025, the City's current rates will increase by the annual increase in the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) in the Los Angeles-Long Beach-Anaheim, CA Area. The increase for the upcoming year is 3.5%. The rate increase is necessary to ensure the funding for the sewer program keeps up with cost increases for maintenance services and capital improvement projects due to inflation.

The sewer service charge per equivalent sewage unit ("ESU") for Fiscal Year 2025-2026 was determined by increasing the sewer service charge per ESU for the previous fiscal year (\$142.37) by 3.5%. The sewer service charge for Fiscal Year 2025-2026 will be \$147.35 per ESU.

For nonresidential parcels, the number of ESUs is determined by the following equation:

$$\text{ESU} = [\text{commercial water consumption Gallons Per Day (GPD)}] / 260 \text{ GPD}$$

For residential parcels, the ESU and charge is calculated as follows:

Land Use	2024-2025 Annual Charge	2025-2026 Annual Charge	Amount of Annual Increase
Single Family	\$142.37	\$147.35	\$4.98
Condominiums	\$142.37	\$147.35	\$4.98
Multifamily (Charge is per unit)	\$85.42	\$88.41	\$2.99
Vacant Parcels	\$71.19	\$73.68	\$2.49
