Hermosa Beach, CA 90254
ATTN: Director of Community Development

Dear Director,

Verizon Wireless is proposing a wireless facility on an existing rooftop not owned by Verizon Wireless. Verizon Wireless does not have specific authority to grant other carriers' permission to collocate their equipment on the existing rooftop. However, Verizon Wireless does not oppose collocation by other carriers on the rooftop if feasible, provided the other carrier does not interfere with Verizon's use.

Thank you for your time and consideration in this matter.

Regards

Ben Foust
