Hi Carrie/Daniel/Alexis/Paul

1:16 PM (1 hour ago)  

1. I have enclosed an email from the maker & distributor Bar 41 (a local company in Carson), that makes the cocktails. This company Bar 41 makes a limited amount of 6 or 7 pre-mixed cocktail drinks that are made from wine & is marked on the label as "Wine Cocktails" & they range from 15 to 17% alcohol (also marked on the label) and sell to restaurants that have a beer & wine license.

2) The larger online food ordering companies such as Doordash, UberEats & Grubhub had gotten permission from the State of California to offer this feature of alcohol delivery on their websites during Covid & is still in effect. It is their drivers that check a customer's ID and delivery the alcohol. I do not have any of my own delivery drivers at Pedones. All of Pedones Pizza deliveries go thru these online ordering sites. Menustar is another online ordering company & is NOT my website.

3) If it pleases the planning commission, I can have these online ordering sites remove the delivery of alcohol.

I hope this explains the planning commissioners questions. Please feel to forward this email to the planning commission.

Thanks Mike Sribney

Mike,

Bar41 wine cocktails are made from wine.

As such they are labeled appropriately on the bottle as Wine Cocktails.  
In California, restaurants with type 41 license are able to serve wine with alcohol content as high as 24% and be within the guidelines.

Hope this helps.

Frank

**Subject:** Pedone's - Website Shows Alcohol for Delivery

Good morning, Michael,

A Planning Commissioner phoned me this morning and inquired about your website (below) which advertises to-go alcohol go delivery.

Also, the menu shows cocktails but you only have a beer and wine license.

Can you look into this and provide us with an answer as soon as possible? Thank you.
