

VISTA DEL MAR

Special Traffic Alert: Changes Coming To Vista Del Mar, In Playa Del Rey

August 9, 2017

Later this month the Los Angeles Department of Transportation (LADOT) will add one additional travel lane southbound from Waterview Street to Imperial Highway and one additional travel lane northbound from Imperial Highway to Napoleon Street on Vista del Mar. Parking on Vista del Mar will be removed.

Construction is expected to begin Monday, August 21st and take 2-3 weeks to complete.

Crews will make every effort to minimize construction-related delays, but at times lanes will need to be closed temporarily to accommodate implementation. Occasional full street closures will occur during night hours only.

During the duration of construction, it is recommended that commuters plan ahead and look for alternate ways to travel. Alternative east/west routes are Imperial Highway and Westchester Parkway; alternative north/south routes are Pershing Drive, Lincoln and Sepulveda Boulevards, and the 405 Freeway. Beach parking is available at the beach parking lots.

Additionally, the Bureau of Engineering also has an ongoing construction project that may intermittently restrict southbound traffic to one lane daily before 3:00 PM.
