Subject: Public Hearing: Ordinance to Require Property Owners to Repair Sidewalk Area Abutting their Real Property.
Date: Tuesday, July 27, 2021 9:04:59 AM

This is utterly ridiculous and I hope everyone can see that. As soon as an owner has to repair the sidewalk-they own it and the legal responsibility that comes with owning property. Do they now own the verge as well? When someone falls on said sidewalk, is the homeowner's insurance responsible for paying out?
Please throw this absurd idea out before it snowballs into a huge problem.
