Subject: potential ordinance to require owners to pay for repairs to city-owned property
Date: Tuesday, July 27, 2021 10:42:06 AM

Dear Mr. Sarmiento:

The proposed ordinance to require property owners to monitor, maintain and pay for the maintenance of city-owned sidewalk abutting to their property is simply ridiculous. I am absolutely speechless to have yet another situation that clearly shows how much the City and Council do not care about their constituents. It appears that we have been placed here to serve the City and the Council, rather than the other way around.. (I will withhold my absolute judgement based on individual councilmember votes.) I'm begging this Council (as I've had to do in the past) to show some common sense and decency.

Thank you,
Carol Herschelman
